Portfolio: Rohan-Portfolio

Certificates

DATA Analytics: by DUCAT

DATA Visualization: by TATA

DATA Science & Analytics: by HP

SKILLS

☐ **Programming Languages:** Python, Java, C
☐ **Web Development:** HTML, CSS, PHP, JavaScript
☐ **Core Concepts:** Data Structures & Algorithms (DSA), Object-Oriented Programming (OOP)
☐ **Database:** SQL
☐ **Tools & Technologies:** Git, GitHub, VS Code, Power BI

EDUCATION

BCA – IITM, New Delhi
- 1st Semester – 9.0 CGPA
- 2nd Semester – 9.6 CGPA

12th – 72% (CBSE)
10th – 80% (CBSE)

PROFILE

- Motivated and detail-oriented Computer Applications student with a strong foundation in **Java**, **Python**, and **Web Development**, aiming to launch a career as a **Java Developer** or **Data Analyst**. Proficient in solving problems using DSA and experienced in building real-world projects, including a responsive portfolio website and Python-based applications. Passionate about continuous learning, clean code, and using technology to drive impactful solutions.
- **Area of Interest**
  - PHP Backend Development
  - Data Analysis & Visualization
  - Software Development & DSA

PROJECTS

- ☐ **Portfolio Website**
  Tech Stack: HTML, CSS, JavaScript
  Built a responsive personal portfolio to showcase skills and projects, using smooth scrolling, Typed.js animations, and section-based navigation.
- ☐ **Python Game – Snake Water Gun**
  Tech Stack: Python
  Developed a console-based game using conditional logic and randomization, enhancing problem-solving and Python basics.
- ☐ **Railway Booking System**
  Tech Stack: Python (File Handling, OOP)
  Created a basic booking system with ticket view, booking, and cancel options using file handling and modular Python code.
